Service Interruptions:

- None reported

Remote/Community Isolations:

- None reported

WEATHER OF CONCERN

Weather of Concern

- An extended period of elevated to critical fire weather conditions is expected this week across Southwest California.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

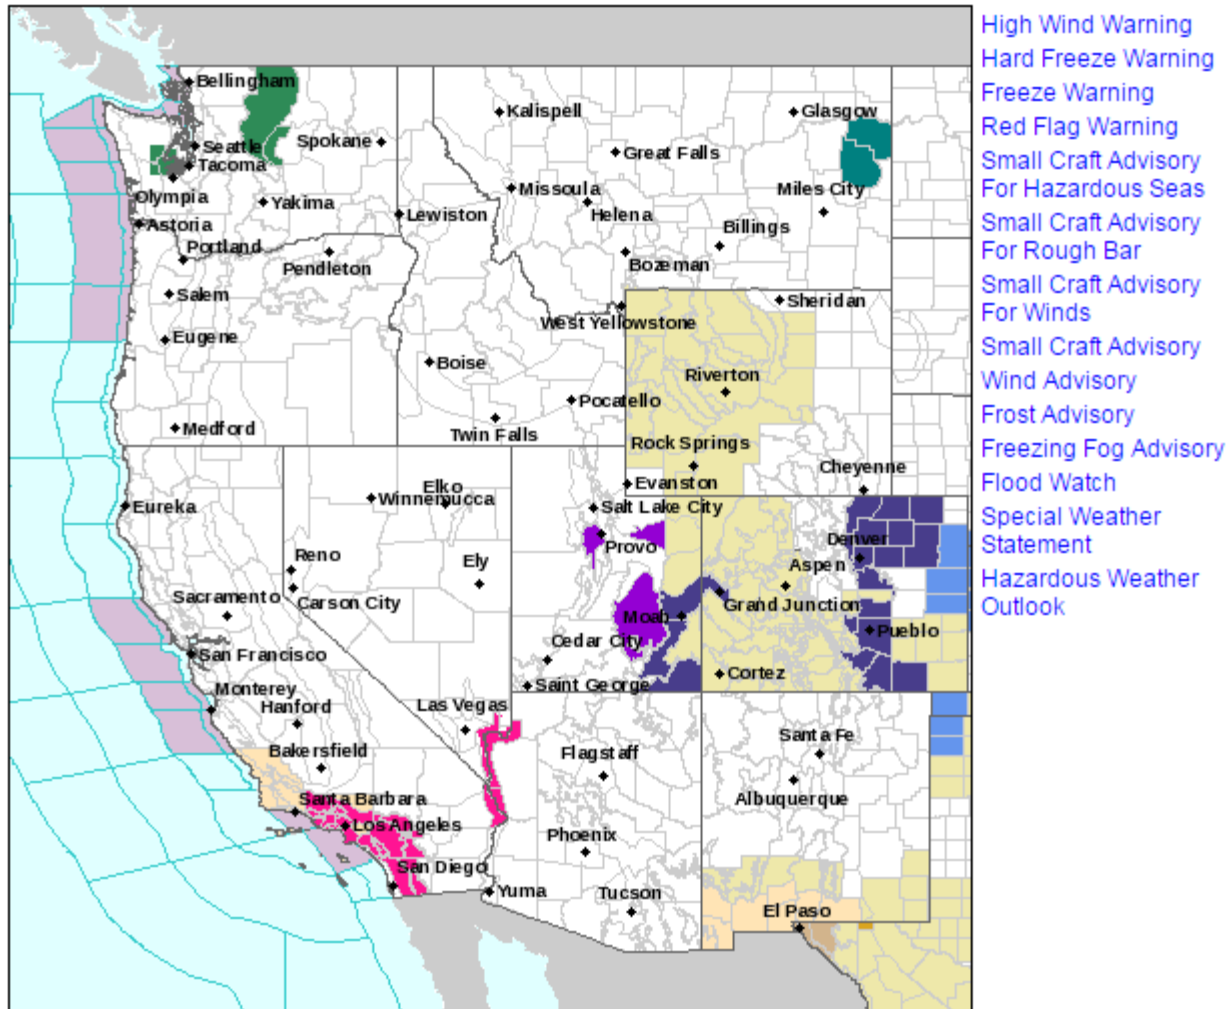

NORTHERN CALIFORNIA

Winds will become quite a bit lighter early today. Although quite a bit of drying is expected in the windy areas, the duration will be pretty short and the drying effects are not likely to be sufficient to dry fuels out enough to elevate fire potential. Today the ridge will be over the Great Basin, and we will be in between weather systems. Some cloudiness and a slight chance of showers will return to the far northwest corner of the state while the rest of the region remains mostly sunny. A low pressure trough will be off shore tomorrow, but things will probably continue to be about the same as today except cooler. The trough will hang off shore through the weekend with periods of variable cloudiness over the northern region. The far northern areas may see a few showers, and periods of moderately gusty southerly winds will develop. More cloudiness and showers will gradually spread across the region early next week for cooler and moister weather again.

SOUTHERN CALIFORNIA

Warm temperatures from overnight will allow temperatures to be close to 100 in the warmest inland valleys and foothills today. It will also be very warm across the central coast region today. Conversely, the San Joaquin Valley will see stable conditions resulting in widespread night through morning fog through the weekend. Onshore flow will slowly return tomorrow and temperatures near the coast will cool 5-10 degrees. Expect a slow cooling trend to continue into the weekend, and by Monday, highs will be back to near seasonal normals. Southerly flow may develop next week, which would tap into subtropical moisture off the Mexican Coast. This may result in isolated light showers on Monday. Longer range models point to a better chance of rain during the second half of next week.

CAL OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2016-LAW-27548, 10/18/16, 1940 hours**, Inyo SO SAR, who is working with Sequoia Kings Canyon National Park (SKCNP), is requesting The China Lake Mountain Rescue Group (CLMRG) to assist in the search for a missing hiker on Wednesday, 10/19/16. The missing person (MP) is overdue two days from hiking/fishing. Minimal info regarding his route info. The MP, a 74 year old male, 5'5" 150 lbs. Brown/Brown, wearing a blue shell jacket and a baseball cap, was reported missing by his sons who are also assisting in the search. The MP sent an OK signal from his SPOT device at 1844 hours on Saturday, 10/15/16. His vehicle was located at 2100 hours on 10/17/16. CHP H40 is assisting with recon flights on Inyo side, and the National Park Service (NPS) helicopter is doing the same West of Bishop 1625 hours. Update from SKCNP Rangers: Aerial recon complete. Footprints noted but no humans seen. Ground crews being released until Wednesday. No other flights until tomorrow due to weather. The CLMRG will report this morning, 10/19/16, for a briefing before being deployed. **Mission Ongoing.**
